

Fuel Productivity and Innovation: Build Intercultural Expertise

- ✓ Productivity and innovation depend upon people working well with, and understanding the needs of, colleagues and customers from different cultural backgrounds

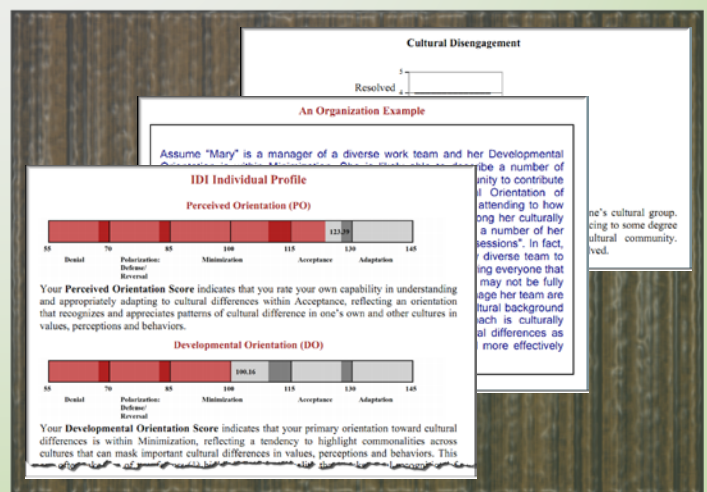

The Intercultural Development Inventory

IDI measures how people tend to think and feel about diversity and cultural difference

We use IDI profile reports to stimulate business-focused positive feedback and development of intercultural expertise

Sample Business-Aligned® D&I Applications

- ✪ Individual coaching and development
- ✪ Leadership development
- ✪ Team building
- ✪ Growing productivity and innovation
- ✪ Resolving destructive conflict
- ✪ D&I training matched to the participants' readiness and business needs
